# REPUBLIC OF LIBERIA

## President's Budget Message – FY2016/17

Honorable J. Alex Tyler  
Speaker and members of the House of Representatives (In Session)  
Capitol Building  
Monrovia, Liberia

Mr. Speaker and Members of the National Legislature:

**SUBJECT: SUBMISSION OF THE FY2016/2017 BUDGET TO THE NATIONAL LEGISLATURE**

It is my pleasure to herewith submit to the 53<sup>rd</sup> National Legislature for consideration the budget for the Republic of Liberia for the Fiscal Year 2016/2017.

### **Background and challenges**

When Liberia emerged from the emergency phase of the Ebola Virus Disease (EVD) outbreak, our expectations were that there would be an easing of the stress that was placed on the economy; by extension, we anticipated some relief from the austerity we had introduced in the management of public finances. On the contrary, economic recovery remains constrained as the demand and prices of our main commodity exports remain stagnant or in decline. As a consequence of these shocks, real GDP growth is projected at 3.9 percent in 2016, rising to 5.3 percent in 2017 with the services sector constituting the key driver of growth in the coming fiscal year.

This positive real growth trend is expected to continue over the medium term, reaching 5.6 percent by 2018, provided Government ensures smooth security transition from the international community to national authorities and a smooth transition of power through the 2017 general and presidential elections. These two processes have the potential to quicken or slow down investors' actions, the latter of which would adversely affect the economy. We must, therefore, be mindful of all our domestic actions, in order to maintain the confidence of investors, development partners, and the public in our nation's political and economic stability.

In view thereof, this budget seeks to prepare for these impending political and security transitions, with numerous expenditure objectives challenged by a limited fiscal space. In addition to the squeeze that a relatively bleak macroeconomic environment places on our resource envelope, the country's ability to borrow also is constrained, following the fall of our debt risk rating from "low" to "moderate" distress in view of our debt to GDP ratio in Net Present Value (NPV) terms.

Meanwhile, public expenditure outlays continue to increase: elections related activities such as a possible referendum, voter registration and civic education to be funded in FY2016/17; necessary preparations for UNMIL drawdown; existing priority projects to fund; the rehabilitation of the hydroelectric power plant and major highways to be co-financed, among other policy interventions; and the government's growing recurrent expenditures. It is within this context that FY2016/2017 budget is being formulated.

#### **Macroeconomic Context**

While GDP is expected to rise over the medium term, inflationary pressures are expected to decline. Inflation peaked at 13.5 percent in September 2014, but has since slowed to 6.5 percent in September 2015, driven largely by a persistent fall in the global prices of rice and oil. However, inflationary pressures are expected to surge in 2016, with average inflation projected to accelerate to 8.0 percent on the back of an anticipated rebound in economic activity and import prices.

Meanwhile, the country's current account deficit continues to worsen on account of a fall in exports and an increase in imports, which has been reflected in a 6.8 percent depreciation of the Liberian Dollar versus its US equivalent in 2015. The Liberian Dollar's depreciation would have been greater were it not for the Central Bank of Liberia's (CBL) interventions in the foreign exchange market. However, there is potential for further depreciation in 2016, as these interventions may be unsustainable in the medium term in view of the country's foreign reserve position.

#### **Resource Envelope**

The total revenue estimate for FY2016/17 is US\$556 million, an 11% reduction from the US\$622.7 million approved for FY2015/16, but a one percent increase on the end-of-year forecast of US\$552.8 million.

The three major revenue sources are Core Revenue of US\$495.6 million, accounting for 89% of the projected revenue; Grants of US\$30 million, five percent; and Contingent Revenue of US\$30.2 million, another five percent. This Contingent Revenue is on account of new revenue measures that require legislative action.

While the aggregate revenue indicates no significant change from the FY2015/16 forecast, Domestic Revenue (tax and non-tax) increases by five percent overall from US\$470 million to US\$493.9 million for FY2016/17. The main factor in this rise is the 123% increase in Non-Tax Revenue from US\$43.4 million to nearly US\$97 million.

The main components of Core Revenue are as follows:

- Tax Revenue of US\$398.7 million; and
- Non-tax revenue of US\$96.9 million.

Contingent Revenue will be raised through the introduction of the following additional measures which I wish to submit along with this draft budget:

- US\$24.2 million from adjustments of existing tax rates; and
- US\$6 million from additional royalties on the GSM subsector.

### **Expenditure priorities for FY2016/17**

In order to submit a balanced budget, the expenditure portfolio is constrained to US\$556 million and consists of two major segments: recurrent expenditure of US\$487.2 million or 88%; and US\$68.8 million or 12% for Public Sector Investment Plan (PSIP). It is worth mentioning that several key expenditure items have been left out of the main expenditure envelope, but will be disclosed in notes (Unfunded Expenditure) to the Budget, since some form of borrowing or special fund raising will be required to meet them. In order to raise resources for these items, our partners require their inclusion in the budget to demonstrate our commitment to funding them.

The recurrent expenditure, which will be used to fund government's administrative and operational costs, comprises the following:

- US\$26 million for debt services, including US\$13 million to pay off domestic debt and interests and US\$13 million for payment of external debt principal and interests;

- US\$261.4 million for compensation of employees, including provisions for training and enrollment of security personnel on the payroll, as part of preparation for UNMIL drawdown;
- US\$105 million for goods and services, including educational and essential health supplies;
- US\$90 million in grants to government and non-governmental service delivery entities.
- US\$3.9 million for consumption of fixed capital; and
- US\$0.9 million for social benefits

Appropriation for PSIP in FY2016/17 is projected at US\$68.8 million, including the following spending priorities:

- US\$ 20 million for 2017 elections preparatory activities;
- US\$13 million for ongoing road works;
- US\$10 million for security preparations for UNMIL drawdown;
- US\$8.4 for construction and renovation of residential and non-residential public buildings;
- US\$7.7 million as GOL's counterpart funding to donor-financed projects;
- US\$5 million contribution to agriculture sector support fund;
- US\$4 million to fund rural development projects; and
- US\$0.8 million for the newly installed thermal diesel generation plants

The amount allocated to PSIP represents only one-third of the US\$209 million investment demand for FY2016/17. The government continues to explore various avenues for the remaining US\$140 million.

Included in the above summaries of revenue and expenditure is \$8.6 million derived from two major items that have no effect on the fiscal balance: \$5.2 million for ECOWAS Trade Agreement Levy to be collected on imports from non-ECOWAS regions and \$3.2 million social contributions from mining concessions.

### **Conclusion**

Honorable Speaker and Members of the House of Representatives, our economy, like most in the world, is experiencing some turbulence due in large part to the global economic downturn. I am confident that our economy will withstand the tests of the

moment and come out stronger than before. However, this will not happen by chance; we will have to make tough decisions in both the short- and medium term, not only within the Executive but also in the Legislative and Judicial Branches.

In the short term, we will have to apply fiscal measures to control expenditure and demonstrate to our partners our commitment to the priorities before us, and thereby attract their support. But, more importantly, we must lead the charge together in taking practical steps to diversify our economy and insulate it from external shocks of the nature we have experienced over the last three years. While I am aware that this will require Government making investments in certain critical infrastructure such as electricity and roads, you will agree that citizens, through private enterprise, will have to take advantage of the opportunities in agriculture, agro-processing and light manufacturing. There is no better time than now to seize this opportunity, especially when we have invested significantly in more than 700 kilometers of paved roads; and more than 136 megawatts of electricity. We have also put in place an incentive regime to attract private capital in agriculture and manufacturing.

Honorable Speaker and Members of the House of Representatives, I need not remind us all of the urgency of the moment. But I must emphasize the speed with which we must move to pass this budget, so that critical investments are not slowed down to further hurt the economy. In addition, I urge your intervention to pass the legislation for the key tax measures before you for consideration, all of which form the basis for the revenue assumptions made in the budget, and which can reduce the risk to the revenue envelope that should finance our development interventions.

I thank you, in advance, for your earliest action to pass this budget, as I remain confident of your appreciation for its high impact on the future of our nation in the achievement of our National Vision.

Sincerely,

  
Ellen Johnson Sirleaf

## PREFACE

### 1. INTRODUCTION

The FY2016/17 is a continuation of the Medium Term Expenditure Framework budget system in which expenditure estimates are aligned with programmatic areas of national development. Total appropriations for FY2016/17 is US\$600,204,076, an increase of 6.7% percent on the end-of-year actual of US\$559,447,747 for FY2015/16. As a result of resource constraints and the need to ensure a balanced budget in FY2015/16, the government effected a 10% across-the-board reduction in appropriations for Goods and Services and 7% in grants. Public investment activities were also streamlined by 36.2%.

The approximately 4% decrease in revenue projection from *US\$622.7 million in FY2015/2016 to US\$600.2 million in FY2016/2017* points to some of the challenges the economy is faced with as the result of major decline in the prices of iron ore and rubber – two of the nation’s leading export commodities and the effect of the slow growth of the world economy, which is estimated at 0.25%.

The **total expenditure allocation of US\$600.2 million** for FY2016/17 comprises recurrent expenditure of US\$520.5 million and a PSIP envelope of US\$79.7 million.

### 2. COMPOSITION OF REVENUE

The revenue estimate of US\$600.2 million will be generated from five main revenue sources: Core Revenue of US\$524.97million (87.5%); Grants of US\$30.26 million (5%); Contingent Revenue of US\$5 million (0.8%); Borrowing of US\$38.0 million (6.3%) and Carry Forward of US\$2.0 million (0.3%) Figure 1 shows the identified sources of revenue and Table 1 presents a summary of major revenue sources.

**Figure 1: FY2015/16 Revenue by primary sources (US\$ million)**

#### 2.1 CORE REVENUE

The major components of Core revenue (US\$524.9 m) which constitutes 87.5% of the total resource envelope, are: *Tax Revenue* projected at US\$ 429.2 million, or 82% of the overall core revenue envelope and *Non-Tax Revenue* of US\$95.8 million or 18%.

#### 2.2 GRANTS

Aggregate Grants of US\$30.26 million or 5% of the total core revenue envelope is sourced from development partners as follows: European Union (US\$12.3 million) for state-building contract; Norway (US5 million) for the Forest Preservation Agreement and USAID (US\$12.9 million) as Fixed Amount Reimbursement Agreement.

#### 2.3 CONTINGENT REVENUE

Total contingent revenue is estimated at US\$4.9 million or 0.8% of total resource envelope. This amount will be raised from domestic revenue sources. It is contingent upon the passage of the proposed amendments to

the revenue code current under review by the Legislature. These proposed tax amendments include tax policy measures on increasing GST rate from 7% to 10%, excise on tobacco (50% plus specific tax of 30% retail price) and excise on alcoholic beverages at 50%; water at 10% and soft drinks at 20%.

#### 2.4 BORROWING

Borrowing constitutes 6.3 % of the total resource envelope. Of the US\$38.0 million projected as total borrowing for the fiscal year 2016/17, core borrowing from the World Bank IDA is US\$20 million, while contingent borrowing expected to be sourced from the IMF ad-hoc augmentation loan scheme is estimated at US\$18 million.

#### 2.5 CARRY FORWARD

The amount of US\$2.0 million sourced from unexpended revenue from fiscal year FY2015/16 in the consolidated account of GOL make-up the remaining 0.3% of the FY2016/17 revenue envelope.

#### 3. FY2015/16 EXPENDITURE

Total projected expenditure, recurrent and PSIP for FY2016/17 is US\$600.2 million. This corresponds to the total revenue forecast in adherence to the principle of balanced budget, according to *Section 2 (C), PFM Law of Liberia, 2009*. Figure 2 compares government expenditure FY2015/16 and FY2016/17.

**Figure 2: FY2015/16 and FY2016/17 Budget (US\$ million)**

### **3.1 MAJOR CATEGORIES OF EXPENDITURE**

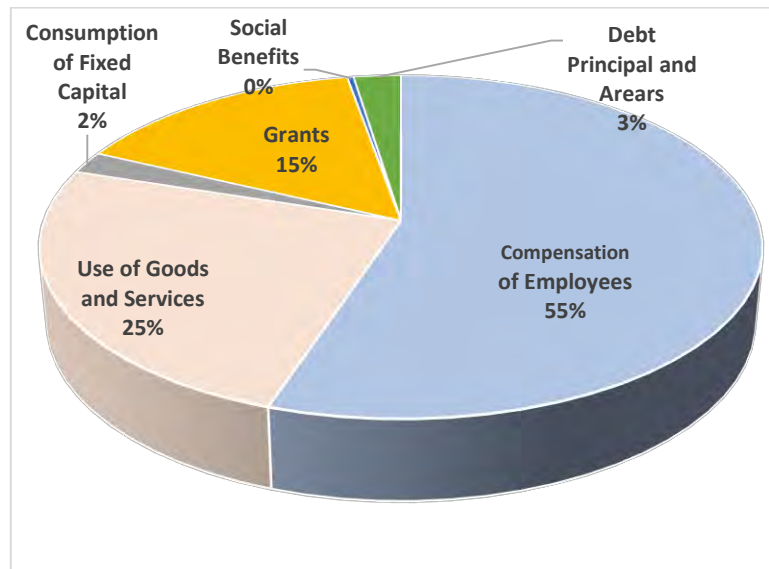

#### **3.1.1 Recurrent Expenditure**

Recurrent expenditures are amounts appropriated to cover the operational requirements related to the routine functions of spending entities. The total amount for recurrent expenditure in FY2016/17 is estimated at **US\$520.6 million** and is distributed as follows:

- a) **Compensation of Employees** is **US\$286.96 million** which is 55.1 percent of recurrent expenditure. This is a 12 percent increase over FY2015/16 allocation of **US\$255.79**.
- b) **Goods & Services** is **US\$128.98 million**. This amount accounts for 24.8 percent of recurrent expenditure. Comparatively, this indicates a 6 percent decrease from the FY2015/16 appropriation (US\$137.19 million).
- c) **Grants** total **US\$79.17 million**, representing 15.2 percent of total recurrent expenditure. This indicates a 22 percent decrease from *US\$ 101.76 million* approved in FY2015/16 budget.
- d) **Consumption of Fixed Capital** (or non-investment capital) is **US\$10.87 million** or 2 percent of recurrent expenditure. This reflects a 12 percent decrease compared to FY2015/16 allocation of *US\$ 12.3 million*.
- e) **Social Benefits** is estimated at **US\$1.73 million**, constituting 0.3 percent of recurrent expenditure.
- f) **Debt Principal and Interest** is estimated at **US\$12.73 million**, which is 3 percent of total recurrent appropriation.

**Figure 3: Percentage Share of the recurrent budget components**

### **3.1.2 Public Sector Investment Plan**

The expenditure envelope for public investment FY2016/17 is US\$79.75 million. Amidst the compelling challenges in resource mobilization, the government remains focused on achieving some key national development outputs in the ensuing fiscal year. The PSIP envelope is divided into two major components: Sector Projects and National Priority Projects. The sector projects constitute US\$25.5 million while total national priority projects are estimated at US\$54.2 million.

## **3.2 SECTOR ALLOCATIONS**

### **3.2.1 Public Administration**

The Public Administration Sector received the highest appropriation (US\$184.2 million) which is 31% of total expenditure envelope for fiscal year 2016/17. ## 402 MINISTRY OF LANDS, MINES & ENERGY

### Mission:

The Ministry of Lands, Mines and Energy was created by an Act of Legislature in 1972 to assess the Land and Mineral resources of Liberia and to formulate policies and guidelines for exploration of those resources for the economic and social benefits of all Liberians. Decree No.55, issued on October 2, 1981, changed the name from Lands and Mines to Lands, Mines and Energy to give equal recognition to the Energy Sector.

### Achievements (FY2015-16):

Extended the electricity transmission and distribution systems; constructed facilities for off-loading, transport, and storage of heavy fuel oil (HFO); provided support for the expansion of supply options; and provided support for the strengthening of the sector's institutional capacity.

### Objectives (FY2016-17):

Increase proficiency in monitoring of mineral title holders; foster decentralization of mining processes; demarcate and re-demarcate mining claims; facilitate mapping out land and title deeds to reduce land dispute across the country; and maintain compliance with the Kimberley Process.

## **ANNEX 1: State Owned Enterprises FY2015/16 Financial Performance**

### **Introduction**

Section 12(f) of the PFM Act of 2009 requires an annex summarizing the annual financial plans and operations of the previous fiscal period and the forecast projection of the following fiscal year of the State Owned Enterprise (SOE) sector. This report is in compliance with the PFM Act to summarize the overall performance of SOEs for inclusion into the Government of Liberia National Budget.

For FY2016/17, the annexure to the Draft National Budget represents a summary forecast of fourteen (14) SOEs in reporting. These SOEs include LMA, LEC, LTA, LPRC, NPA, RIA, LWSC, NOCAL, LIBTELCO, NASSCORP, FDA, NHA, NTA and LBS. The Annex provides information on the actualized financial performances for FY2014/2015, Year-to-Date financial performance for the first and second quarters of FY2015/2016, and the revenue and expenditure forecast projection for FY2016/2017.

The Annex also provides highlights on operational activities of SOEs in respect to their financial viability and the associated risks. This annexure is an integral part of the Draft National Budget for FY2016/2017, depicting the financial and operational performance of the SOE sector and how each SOE performed during the previous financial year and look forward to the next operational year. This report will guide policy makers in their decision making over the period.

## ANNEX 2: FY2016/2017 Donor Aid Projections

### 1.0. INTRODUCTION

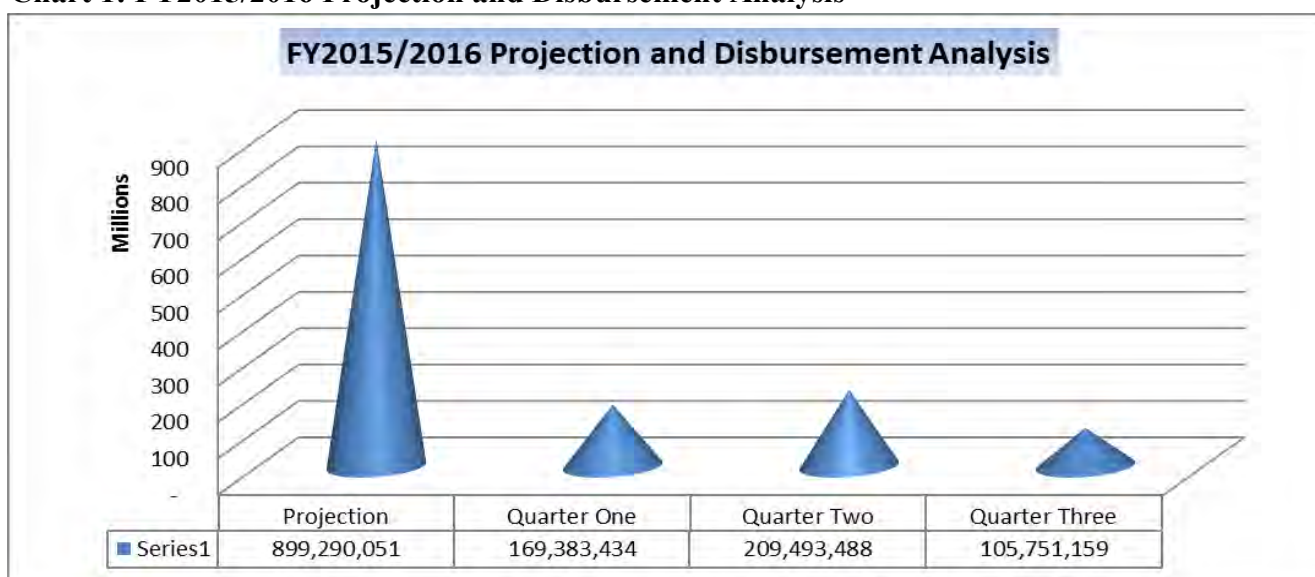

#### 1.1. Background

**Section 12 (Documents and Contents of proposed Budget)** of the Public Financial Management Law of 2009 requires that the fiscal framework takes into account an aid annex identifying in summary form all donors financing, and distinguishing financing in support of the central government from other external financing. This section of the FY2016/2017 National Budget summarizes the external aid flows into categories: bilateral or multilateral aid; on budget or off budget; aid type (grant or loan); and by sectors. This aid projection contains data and information regarding the twelve months of FY2016/2017 (July 1, 2016 to June 30, 2017) and comparative analysis is made with the previous fiscal year data of FY2015/2016. It aims at providing the Government of Liberia; especially the Legislature, with quantitative performance measures regarding loan and grant commitments, disbursements and sectoral allocations.

#### 1.2 Trend Analysis and Disbursement

The FY2015/2016 National Budget recorded a total aid projection of **US\$899,250,051** from twenty-two (22) Development Partners; aligned to the eleven budget sectors and five (5) pillars of the Agenda for Transformation (AfT). As to actual disbursement, data for FY2015/2016 Quarter One, Quarter Two and Quarter Three have been published, amounting to **US\$480,628,080** – a **53.8%** rate of disbursement. The below table provides a snapshot of disbursements against projects for the fiscal period.
